Many people and organizations were involved in making this website possible:

Organizations

The Friends of the Florissant Fossil Beds, Inc. are funding the hosting and maintenance of this website. They also sponsored the internship necessary to create much of the material presented on <http://peru.fossilbeds.org> and <http://sexi.fossilbeds.org>.

The United States National Park Service (USNPS) has hosted facilities and provided staff support as a part of their ongoing mission to conserve natural and cultural resources throughout the world.

The National Science Foundation supported research at The Petrified Forest Piedra Chamana through grant no.0403510.

The American Philosophical Society provided a travel grant.

Individuals

Susan Aragón provided assistance with the Spanish translations.

Santiago Asenjo, a native of Sexi, provided invaluable information about the culture of the District of Sexi and the logistics of visiting the town. He currently serves as a contact for prospective visitors to Sexi.

Laura Clarke provided illustrations for the website as part of her Geological Society of America, GeoCorps America internship at Florissant Fossil Beds National Monument.

Wayne Johnston, the webmaster for The Friends of the Florissant Fossil Beds, maintains this website and provided technical support during its development.

Herb Meyer & Deborah Woodcock, scientists currently studying the fossils at Sexi, initiated the development of the website dedicated to The Petrified Forest Piedra Chamana and reviewed and directed much of the content.

Jean Schnell photographed many of the copyrighted images appearing on this website and gave permission to use them in interpretive materials for the fossil forest.

Lindsay Walker participated in the Geological Society of America, GeoCorps America internship program in 2011. Her internship at Florissant Fossil Beds National Monument was sponsored by The Friends of the Florissant Fossil Beds, Inc. Over the course of the summer, she helped develop the interpretive materials found on this site.
